

SUBLETTE COUNTY, WYOMING MOUNTAIN BIKE TRAILS GUIDE

FIRST EDITION / 2016

RULES OF THE TRAIL

The way we ride today will shape mountain bike trail access tomorrow. Do your part to preserve and enhance our sport's access and image by observing the following rules of the trail as formulated by the International Mountain Bicycling Association (IMBA).

1. RIDE ON OPEN TRAILS ONLY

Respect trail and road closures - ask if uncertain, avoid trespassing on private land, and obtain permits or other authorization as may be required. Federal and State Wilderness areas are closed to cycling. The way you ride will influence trail management decisions and policies.

2. LEAVE NO TRACE

Be sensitive to the dirt beneath you. Recognize different types of soils and trail construction and practice low-impact cycling. Wet and muddy trails are more vulnerable to damage. When the

trailbed is soft, consider other riding options. This also means staying on existing trails and not forging new paths. Don't cut switchbacks. Be sure to pack out at least as much as you pack in.

3. CONTROL YOUR BICYCLE!

Inattention for even a second can cause problems. Obey all bicycle speed regulations and recommendations.

4. ALWAYS YIELD TRAIL

Let your fellow trail users know you're coming. A friendly greeting or bell is considerate and works well; don't startle others. Show respect when passing by slowing to a walking pace or even stopping. Anticipate other trail users around corners or in blind spots. Proper yielding means slowing down, establishing communication, being prepared to stop if necessary, and passing safely.

5. NEVER SCARE ANIMALS

All animals are startled by an unannounced approach, a sudden movement, or a loud noise. This can be dangerous for you, others, and the animals. Give animals extra room and time to adjust to you. When passing horses use special care and follow directions from the horseback riders - ask if uncertain. Running cattle and disturbing wildlife is a serious offense. Leave gates as you found them, or as marked.

6. PLAN AHEAD

Know your equipment, your ability, and the area in which you are riding -- and prepare accordingly. Be self-sufficient at all times, keep your equipment in good repair, and carry necessary supplies for changes in weather or other conditions. A well-executed trip is a satisfaction to you and not a burden to others. Always wear a helmet and appropriate safety gear.

MISC. TRAILS

Sublette County is full of great mountain biking opportunities. This guide focuses on only a handful of trails in the area. Highlighted here are some of the outlying trails in the area. Take Highway 191 north to Bondurant for two great trails in the Wyoming Range or head southwest across McDougal Gap to reach the Wyoming Peak Trail via the Greys River Road. For a quick ride head up to Fremont Lake and access the scenic trail via the Fremont Lake Dam (next to the CCC Ponds).

MISC. TRAILS

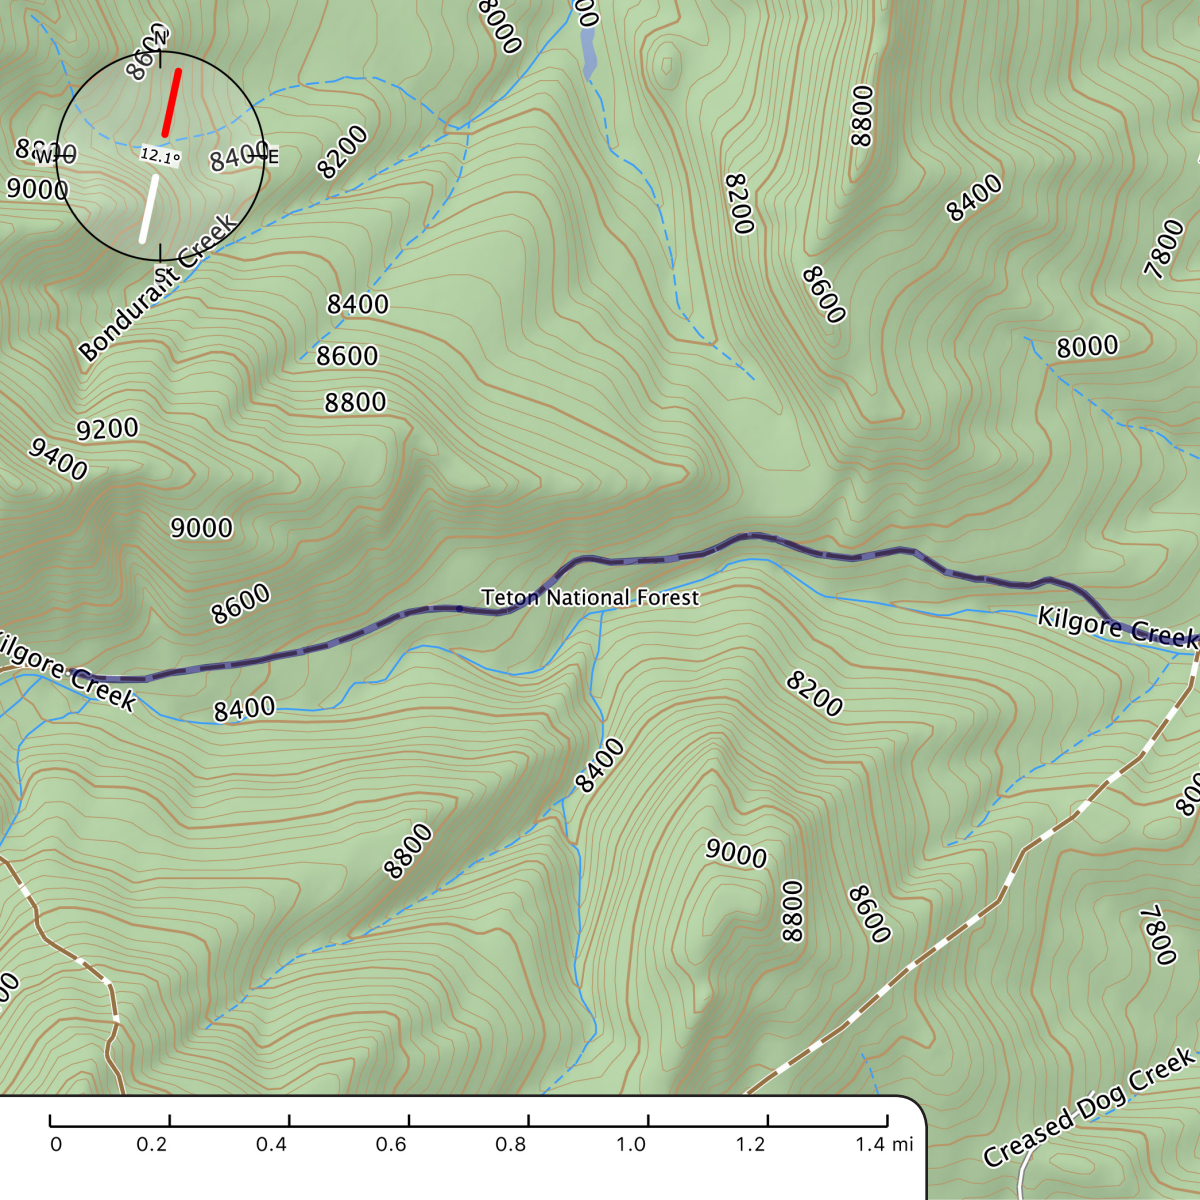

FREMONT LAKE TRAIL

EASY

**3.3 miles | Single & Two-Track | Elevation: 7,430'
307' Ascent | 149' Descent**

Starting Coordinate: N42 53.930 W109 50.302

An old Forest Service road reclaimed by vegetation and evolved into single-track of a lovely grade that climbs and descends along the lakeside. Wind River views frame the setting. Out and back trail. Cross Fremont Lake Dam. Trail starts from the other side as single-track intermittently changing to two-track.

MISC. TRAILS

KILGORE CREEK

DIFFICULT

3.2 miles | Single-track | Elevation: 8,579'
1,116' Ascent | 51' Descent

Starting Coordinate N43 04.272 W110 28.844

A technical climb to a technical descent breaking into fast flow that begins in a massive alpine valley.

MISC.

MISC. TRAILS

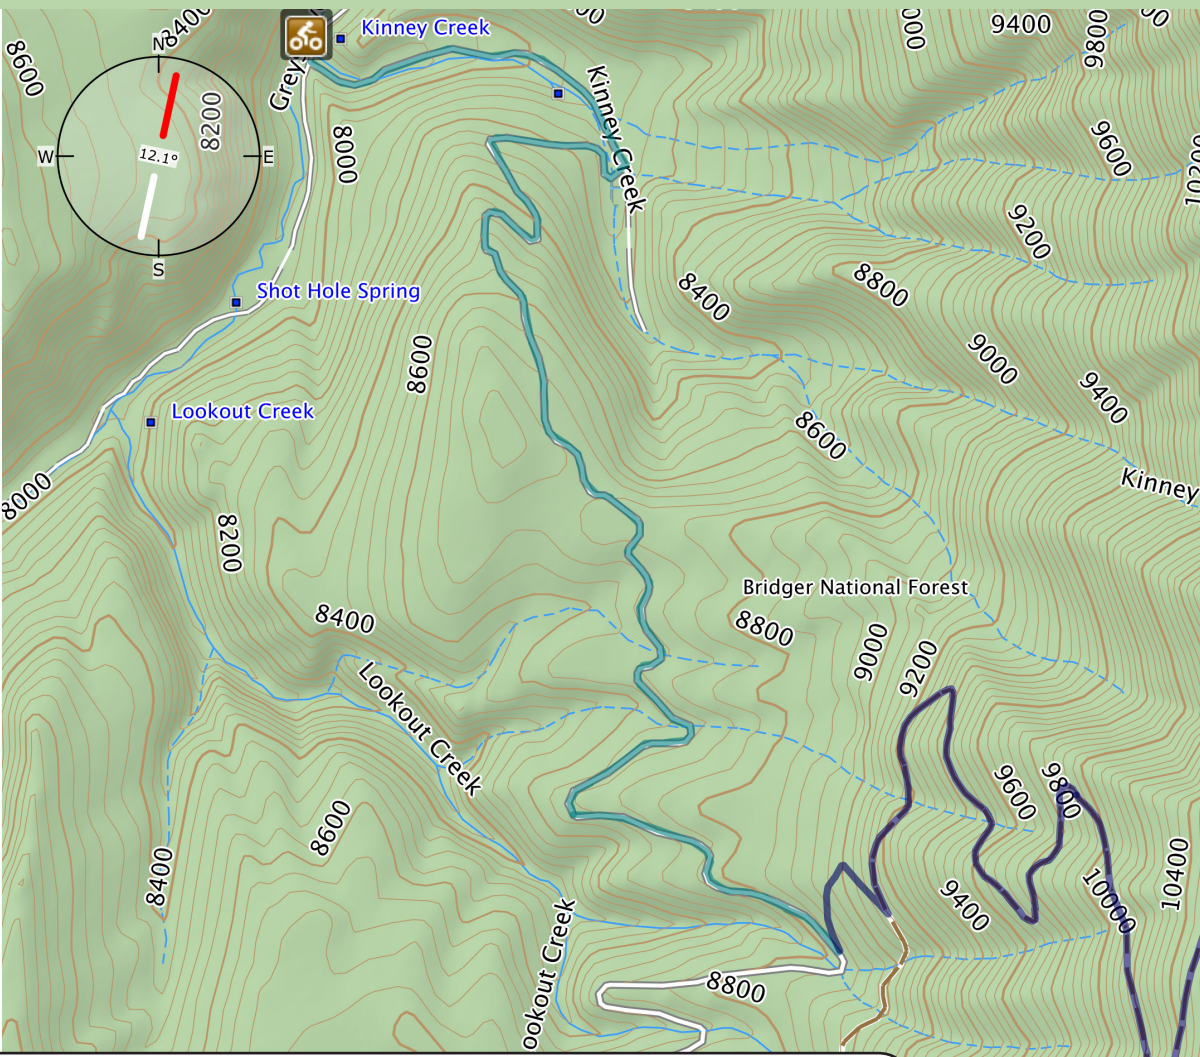

MONUMENT RIDGE

DIFFICULT

3.4 miles | Single-track | Elevation: 8,209'
1,614' Ascent | 24' Descent

Starting Coordinate: N43 11.203 W110 24.508

A fast, technical ride through fields of wildflowers with epic views.

MISC. TRAILS

WYOMING PEAK

DIFFICULT

3.4 miles | Single-track | Elevation: 8,209'
1,614' Ascent | 24' Descent

Starting Coordinate: N42 35.258 W110 36.783

A climb and descent of the highest peak in the Wyoming Range. This ride consists of long side cut switchbacks with high exposure, excellent grade, and high speeds.
